## Spring Storm Appears To Be Dying Out

By UNITED PRESS

The spring storm that ravaged most of the nation with deadly tornadoes and high winds appeared to be dying out today. The U.S. Weather Bureau at Chicago reported the letup but said it was accompanied by steep jumps and drops in the mercury columns.

The expiring lash of the storm's tail, however, snapped at the eastern half of the nation Friday night. Winds of 90 mph velocity howled down Toledo, Ohio streets, lifted Lakes freighters from its moorings and wrenched out at least 50 power lines.

A United Press tally revealed a total of 45 weather-caused deaths during the past week. Tornadoes were responsible for 19 of these fatalities. There were 11 in Texas five in Oklahoma, two in Georgia and one in Mississippi. Blizzard and storms killed five persons in Colorado, three each in Illinois and Indiana, two in Mississippi, South Dakota, Missouri, Nebraska and Wisconsin, and one in Texas, Ohio, Iowa, Minnesota and Utah.

Several patients in an Erie, Mich. clinic were soaked by a driving thunderstorm Friday night when 81 mph winds ripped the clinic roof off.

No deaths were reported from the twisting storm throughout the South finally moved off into the Atlantic Friday. North Carolina suffered from swollen streams as well as from wind and storm damage. Mountain rivers in the West, bloated with more than four inches of rain, posed a serious threat in the state. But reports indicated the water level was dropping slowly today.

Part of the storm gave a departing twist to the Ohio Valley. The Ohio State Highway Patrol reported sections of 31 highways under water. A flood was narrowly averted when a small dam at West Carrollton, Ohio, broke. Water was safely diverted in a canal, however, by an emergency gate, protecting Miamisburg from the flood.

## Three Year Old Girl Is Raped

WEST COVINA, Calif. — A 24-year-old man confessed early today to kidnapping a 3-year-old girl and leaving her nude and beaten in a field nearby two hours later, sheriff's deputies reported.

The girl, Barbara Allen, was described in critical condition at Covina Community Hospital.

Detectives said James Kenneth Williams, of nearby Alhambra, admitted taking the girl from her mother's car Friday and then molesting her in a lonely spot near the South Hills Country Club.

"I just got an urge," Williams told officers. "I hit her with a rock later. . . then I felt bad."

## New Game Bird To Be Introduced

FRANKFORT — The state Department of Fish and Wildlife Resources announced Friday it is attempting to introduce a new breed of game bird in Kentucky. The department plans to free about 700 Japanese coturnix quail in various sections of the state next week. Another 10,000 birds will be released next fall.

The department will tag all of the birds with leg bands in order to keep a check on their adaptability to conditions in the state.

An open season on this type bird will be declared next fall to determine whether a substantial number of the birds are able to survive and multiply.

Hunters who kill them will be asked to return the leg bands to the department to aid in the compilation of data regarding the experiment.

## Teen Town Rules Are Strict For The Good Of All

The Murray Teen Town organization has strict rules, according to Norman Hale, director. The rules were drawn up and everyone is expected to strictly adhere to them, he said.

The organization is described as a "social recreation club for single youth of the age 13 to 19. Each member has a personal responsibility in the club; sharing the work, participation in its general activity, and knowing and abiding by the club rules."

The eight rules are as follows: 1. Membership cards must be presented for admittance. No exchange of membership cards. No refunds.

2. Members may bring out of town guests only.

3. Members and guests are not permitted to leave the building until they are ready to go home.

Here are the All-Stars from the Carter Cutie-Austin Adorable game played last night in the Murray High gym. Mayor George Hart is shown presenting the certificates. From left to right are Mrs. Betty Lowery, Mrs. Dan Hutson, Mrs. Gaylon Thurman, Jr., Mayor Hart, Mrs. James C. Williams, Mrs. John Scott, and Mrs. James Cullinan. Mrs. Cullinan was named most valuable.

Mayor Hart is shown presenting the All-Stars of the Lions Club-Faculty game their certificates. The game was played last night in the Murray High gym. From left to right are Mayor Hart, Lube Veale, Jr., Charles Finney, Eli Alexander, Joe Pat Ward and M. C. Ellis. Joe Pat was named outstanding for the Lions and Alexander for the teachers.

## Carter-Cuties Win First Annual Basketball Game Over Austin Adorables; Lions Win

By JIM DUMAS  
The Cutie Carters pulled the first and last punches and a sixteen to eight win over the Austin Adorables in a ludicrous PTA sponsored basketball game at Murray High last night.

The second round of (grown-up) entertainment between the Lions Club and Faculty went to the Lions 19-14.

The ladies brought a capacity crowd to the peak of ecstasy and left them wondering what to expect next.

The Cuties dressed out in red bloomers lined up at the opening horn wearing boxing gloves. Obviously a strategy on the part of coach Poter Cayon who instructed her girls to come out fighting. Only the referee received the blows, however in disarming them.

The first quarter was rough and tumble with each side capitalizing on one foul shot with twenty minutes of actual time assured. Only four minutes of playing time. Jo Williams shook her interference and raced for the first field goal. She was so stunned and elated that she stopped the game and ordered tea for the house.

Audrey Scott teamed with Jo to lead all scorers with six points each.

The Adorables went wild in the third quarter behind the running set shots of Neva Gray Albritten and the stout defense of Mrs. Harry Sparks and Betty Lowery to pull within two points 8 to 6, but the Cuties forged

## Moyers To Make Visit To Canada

Mr. and Mrs. R. E. Moyer will leave by plane Sunday for Montreal, Canada. Mrs. Moyer will return by June 1.

Mr. Moyer is associated with the Murray Manufacturing Company and will leave for Canada where the company has an affiliate.

While in Canada the Moyers' two girls will stay with relatives and attend school in Indiana.

The Moyers are having the Ledger and Times sent to them while they are away from Murray.

## Talented Porpoise Swallows Ball, Dies

MARINELAND, Fla. — A talented porpoise died Friday from the effects of swallowing a small rubber sphere which his trainer had been using to teach him how to play baseball.

Algae, the eight-year old star in Marine Studios' porpoise show died while veterinarians tried to remove the rubber ball.

Trainers said the talented mammal was learning a new act, "baseball," the latest addition to his long repertoire, when the accident happened.

X-rays showed the ball, four inches in diameter, was lodged in Algae's first stomach and veterinarians tried to extract it with grasping forceps which were inserted by tube through the mammal's mouth. The operation was performed with Algae out of water, on a table where attendants constantly bathed the ailing porpoise with water and wet rags.

But the sleek porpoise died while attempts were being made to remove the ball with the improvised instrument. Regular animal forces were not large enough to extract the object.

Marine Studios publicist W. S. Chambers Jr. said Algae swallowed the ball while learning to take it in his mouth, "throw" it to the "batter" (his trainer) and then protest the decision when someone called the "pitch" a "ball."

## ACTRESS HAS BOY

LONDON — French actress Leslie Caron gave birth to a 6-pound, 12-ounce boy.

## Congress Ready To Meet Demands Of Postoffice

WASHINGTON — Congress today appeared ready to meet at least part way the demands of Postmaster General Arthur E. Summerfield for additional funds to have a cut in postal services.

Summerfield late Friday postponed until next Saturday a threatened reduction in service. He had been expected to put through the order making the reductions effective today.

Summerfield acted after the House Appropriations Committee scheduled a meeting for next Friday to take up Summerfield's emergency request for \$7 million dollars to operate the Post Office, Department, for the next three months.

## Council Votes For Slow Time

The Murray City Council last night voted unanimously to keep "slow time" in Murray this year. The question was brought up by Mayor Hart last night with the suggestion that it be settled last night rather than to discuss the issue for several weeks.

Several councilmen brought out the point that much confusion resulted last year in Murray when part of the town was on "fast" time and part was on regular time.

No particular action was taken by the council last night. A second reading was given to one ordinance concerning parking near fire plugs. The question of dumping garbage on South 16th was brought up. Darrell Shoemaker said that he had received

## Strangler Of Woman Is Sought

HOLLYWOOD, April 6 — Police technicians tested today dirt found near the strangled body of Mrs. Ruth Goldsmith, wealthy representative of a New York firm.

Mrs. Goldsmith's body was discovered Friday in her lavishly furnished hotel suite by a maid. Detectives said she was clad in a negligee. Her hands were bound behind her with a silk stocking and a washcloth was stuffed in her mouth.

A preliminary examination indicated that Mrs. Goldsmith, about 45, had been strangled. An autopsy was scheduled later today to determine the exact cause of death.

Police said the bed in the room was soiled by shoe marks. Pieces of dirt, believed to be from the murder's shoes, were found near the bed.

Police were puzzled over a motive for the crime. They said Mrs. Goldsmith's clothing was disarranged but there was no evidence that she had been sexually molested. Some jewelry was reported missing from her room.

## Tennis Squad Returns From "Hot" Florida

The Murray Racers returned from their tennis trip yesterday and found the April "winter" weather more hostile than their losing hike through Dixie.

Coach Rex Alexander, his sun tan fast diminishing, concluded that the tour was beneficial to his court men and set them up for a defense of their OVC battle.

The Breds managed only one victory in the four games played but paced by John Powless, they left a solid hoof print with every foe. Opposing coaches at every point labeled the Flora, Illinois star the best college tennis player ever.

Playing against opponents that had been active for over two months, Murray bowed to Pensacola Naval Station 4-3, fell to strong Rollins 6-1, lost a thriller to Florida State 4-3 and on the way home, whipped Florence State (Ala.) 6-1. A contest with the University of Florida was canceled because of rain.

At Pensacola, Murray opposed many ex-college stars and were edged, though Powless and John King won singles, while King and Monroe Sloan captured doubles.

Powless kept his perfect collegiate single record intact which accounted for the Racers only tally against Rollins in the win over Florence, only Larry Henson dropped a match.

### VALUE OF FARM LAND

The Department of Agriculture reports the value of  
farm land at an all-time high, sales during 1956 av-  
eraged 143% of the per acre price in 1948-49.

Value of land has continued to increase, despite a  
decrease of 25% in farm income since the all-time high  
in 1951, and the department has conducted a study to  
determine why this is.

The study has shown decided changes in farming  
methods in recent years, and evidence that most farmers  
need more land to offset lower commodity prices.

What has been happening in industry for two de-  
cades is now happening in agriculture at a much faster  
pace—consolidations, increased production and assembly  
line production. And for the same reason.

The cost of farm labor has increased even more  
rapidly than the increasing wage scale in industry. This  
means less hands, increased production per man, exten-  
sion of rural electric lines to operate farm equipment,  
more livestock and less row crops.

Every time there is a bill in Congress to  
argue about it turns to agriculture, it seems such a time  
has arrived in Washington so farm leaders are expect-  
ing renewed attacks on Secretary Benson and the Eisen-  
hower farm program.

Farming has been discussed so much in the last 25  
years, and there is such a wide-spread lack of under-  
standing of conditions on the farm, some city folks think  
our food and fiber is produced by peasants. Nothing  
could be further from the truth.

In spite of propaganda regarding the decreasing  
farm population, and poverty regarding lower prices  
for farm products, there is plenty of money to be made  
in farming and millions of intelligent people had rather  
farm than do anything else. And most of them know  
what they are doing. They cope with the vicissitudes of  
nature, as well as the uncertainty of markets, and they  
do it successfully year after year.

Not only that, but these fine folks are training their  
children how to farm. Not exactly like they learned  
farming, or course, but the need to be educated now the  
same as the leaders in other vocations need it, but they  
are also getting the basic training in farming a girl or  
boy can get nowhere except on the farm.

We have been short-sighted in making adjustments  
to modern agriculture, as well as slow to recognize the  
pressing need for industrial payrolls, hence the adjust-  
ments are proving painful and costly.

The adjustments are taking place, however, in spite  
of all the tears we can shed, and those who recognize  
them as opportunities are making progress accordingly.

We expect to see more and more old farm places  
come onto the market, and more and more of them pur-  
chased by neighboring farmers, or new-comers to this  
area. They are not being sold by the sheriff, however,  
as was the case during the 1930s, and they are not being  
sold at a loss, either.

One of Roger Babson's gems of advice to industrial  
investors is "don't sell American industry short." That  
same advice can be given to owners of farm land, but  
most of those who own some seem to realize, and ap-  
preciate its value. And those who want some will prob-  
ably pay more if they delay buying it.

### SPORTS PARADE

By OSCAR FRALEY

United Press Sports Writer  
NEW YORK (AP)—The baseball  
spring training period is drawing  
to a close and, for guys like  
Mickey Mantle and Bill Sarni,  
it will be one they'll never  
forget.

Fretty soft, you say, to escape  
the warty blasts and loll around  
in the sunshine while getting  
paid for it. But to the players  
this is the toughest part of the  
season, the aches and pains  
period which some of them don't  
survive.

Sarni didn't—and with Mantle  
every day is hazardous.

At 29, the Giant catcher reached  
the end of his baseball career  
when he suffered a heart attack.  
He'll coach, sure, but at his age  
you don't expect to be finished  
competitively.

And can you imagine Mantle's  
feelings when he stepped into  
an outfield hole and suffered  
a severe ankle sprain? You could  
feel him wondering whether he,  
too, had "had it."

Legs Are Fragile  
Because actually every day  
could be Mantle's last. His legs  
are that fragile. There's that  
arrested osteomyelitis in his shin  
as well as the trick knees which  
have been operated on twice and  
must be kept lightly wrapped at  
all times against the dangers  
of sudden stops and starts.

At 25, Mantle has it "made"  
if his luck holds. Winning the  
triple crown batting champion-  
ship and most valuable player  
honors, netted him a \$60,000  
salary this season. And, they  
insist, he is just getting started.

Lots of others suffered serious  
and painful difficulties this spring.  
Early Wynn can hardly  
walk because of a pulled leg  
tendon. Herb Score suffered a  
wrenched knee. Gerry Staley of  
the White Sox came back after  
a lip operation for a cancerous  
growth and Ted Kluszewski is  
fighting the crippling effects of  
a pinched sciatic nerve. Bill  
Skovron broke a thumb and  
Ray Narleski a finger.

Aches Disappear Eventually  
For most of them it's a tempo-  
rary situation. The minor breaks  
knit and the aches disappear  
eventually.

### Hank Aaron Makes It Clear He Will Have No Spring Slump

By UNITED PRESS

Hank Aaron's .417 average is  
making it clear today that there'll  
be no repetition of the spring  
slump that almost cost him the

National League batting cham-  
pionship in 1956.

Aaron walloped a homer and  
a single Friday to pace the  
Milwaukee Braves to a 5-1 vic-  
tory over the Brooklyn Dodgers  
and raise his runs batted in  
total to 22 for 17 games.

The Philadelphia Phillies raised  
their record to 12-2 against  
American League rivals when  
they scored six unearned runs  
in the seventh inning to down  
the New York Yankees, 6-4.  
Bob Turley shut out the Phillies  
with three hits for six innings  
before two errors got him into  
trouble.

The Cleveland Indians made  
it seven victories in their last  
eight games when they clubbed  
out a 12-9 decision over the  
New York Giants. The Indians  
hacked out 12 hits, including  
nine for extra bases, and re-  
ceived 13 walks from New York  
pitchers.

The Kansas City Athletics  
handed the Boston Red Sox  
their fifth straight loss and 12th  
in 18 games with major league  
rivals when they scored for  
eighth-inning runs for a 4-1  
triumph.

Bob Rush, flouted to be the  
Chicago Cubs' opening day pitch-  
er, went nine innings for the  
first time Friday night and scored  
a 6-4 victory over the Baltimore  
 Orioles.

Don Hoak confirmed his strong  
bid for a regular job when he  
walloped a sixth-inning homer  
that gave the Cincinnati Reds a  
1-0 decision over the Wash-  
ington Senators.

CALL TRANSIT STRIKE

BIRMINGHAM, Ala. (AP) — A strike, halted partly on indirect effects of bus integration attempts, halted transit service to Birmingham's metropolitan population of 600,000 persons today. Union drivers called the strike Sunday night by an almost unanimous vote to support a 46-cent hourly wage increase demand. The company offered three cents, saying it had suffered recent revenue cuts.

Located in the foot hills of the Appalachians, in Johnson City, East Tennessee is the third largest college in the volunteer state, with an official enrollment of 3,018. It is exceeded by only the University of Tennessee and Vanderbilt. The distance from Murray is about 500 miles. They have been a member of the Volunteer Intercollegiate Athletic Association for several years, a conference to which OVC membership Middle Tennessee also belongs. This section of East Tennessee is one of the best regions in the United States for producing athletes. Although Stewart said the new member lagging behind in baseball for a few years, he thinks they might be the team to beat in football, basketball, tennis, trick and golf.

However due to schedule irregularities, they probably will not figure in the championship picture in basketball and football for at least two years. Officials at other member schools have contract obligations to fulfill, some stretching over three year periods, and are limited by NCAA regulations on the number of scheduled games.

To be eligible to win the conference crown, each team must play the others at least once in football and twice on the hardwood. Changes will have to be made in the present baseball set up also, in which the conference is divided up in two divisions, the winners meeting in a post season playoff for the title.

Murray State, which had objected to ETSC's admission because of the long distance involved, will not be able to schedule her in either football or basketball next season.

Confederate Has Operation

PENSACOLA, Fla. (AP) — William A. (Uncle Bill) Lundy, Florida's 109-year old Confederate veteran, went through a major bladder operation "as a much younger man might have."

Doctors reported today. Hospital authorities refused to list Lundy's condition but said the spry old rebel's condition "definitely was not serious." He said he was recovering "as well as can be expected" from the operation. It was the second within one month.

CRITICIZE U. S. NAVY

MOSCOW (AP) — The Soviet navy newspaper fleet expressed low opinion of the U. S. Navy today, and said lack of discipline and poor seamanship is reflected in numerous American accidents. It cited the collision of the aircraft carrier Forrestal with a tanker at Norfolk, Va., last year, three landing accidents of jet fighters on the Forrestal and a fire in the atomic-powered submarine Nautilus which it blamed on "violation of elementary regulations."

## Entry Of East Tennessee To OVC To Strengthen League

The long awaited admission of East Tennessee State College to the Ohio Valley Conference definitely adds over all athletic strength to the group, Roy Stewart, MSC Athletic Director, said yesterday.

"They might even win the track title this spring," he added. And that is not just second guessing for the ETSC thinks have been strong for years.

## Lawmakers Threaten Lobbyists

ALBANY, N. Y. (AP) — Lobbying activities on the floor of the State Assembly were notably missing Friday because Assembly Speaker Oswald D. Heck threatened to lob the lobbyists into jail. Faced with a continually increasing number of lobbyists parading around the floor, Heck banged his gavel and ordered, "If there is a single lobbyist on the floor of this House, I want him brought before the bar of the assembly and we'll see that he gets a good fat jail sentence."
